Objective

Motivated MERN Stack Developer with practical experience in building responsive, full-stack web applications. Skilled in React.js, Node.js, Express.js, and MongoDB, with additional experience in Java and Firebase. Looking to contribute to a collaborative development team where I can apply and grow my skills in real-world projects.

Experience

- TARS Technologies** 17 Sep 2024 - Present
Web Development Intern
 - Developed and optimized web applications using React.js and Node.js, improving load times by 30%.
 - Fixed UI/UX bugs, enhancing website responsiveness and user experience.
 - Collaborated with a team using Git for version control, streamlining the development workflow.
- Resolutor Learning Solution** 2 Jun 2024 - 10 Sep 2024
Math Content Creator
 - Responsible for managing and responding to student math queries through the platform's chat support system.
 - Created question papers and contributed to educational content development by curating and formatting textbook materials.
 - This role strengthened my attention to detail, subject matter clarity, and ability to explain complex concepts in a simple and understandable way.
- Cognifyz Technologies** February 2024 - March 2024
Software Developer Intern
 - Worked on multiple tasks involving Core Java programming during the internship.
 - Gained hands-on experience in writing and testing Java code, and built small-scale programs to strengthen backend logic.
 - This internship helped reinforce my understanding of object-oriented programming concepts and improved my ability to work through real-world coding challenges.

Education

- Tulsiramji Gaikwad Patil College of Engineering and Technology, Mohgaon** 2023
Engineering (Information Technology)
CGPA: 6.45
- Shri. Saraswati Bai Nistane Vidyalay, Takalghat** 2019
HSC
66.46%
- Shri. Saraswati Bai Nistane Vidyalay, Takalghat** 2017
SSC
86.20%

Skills

- Frontend: HTML, CSS, JavaScript, React.js, Bootstrap
- Backend: Node.js, Express.js, Java, Firebase
- Database: MongoDB
- Version Control: Git, GitHub, Postman
- Other: RESTful APIs, Cloudinary

Projects

- E-Planet**
 - Developed a responsive tuition management platform for teachers and students.

- Implemented real-time database features using Firebase for live updates.
- Enabled seamless multimedia storage with Cloudinary, improving content handling.
- **EnneaLogic Website**
 - Built and managed the backend of a dynamic web platform using Firebase and Cloudinary, enabling efficient storage and retrieval of multimedia content such as text, images, and videos.
 - Focused on optimizing cloud-based data workflows to ensure strong performance, easy scalability, and a responsive user experience across all types of content.
- **Employee Management System**
 - Developed a desktop-based Employee Management System using Core Java, JDBC, and SQL, integrated with a responsive frontend built with HTML, CSS, and JavaScript.
 - Designed secure admin login functionality and streamlined CRUD operations to manage employee records efficiently.
 - This project strengthened my understanding of database connectivity, backend logic, and full-stack application flow.
